

NEW CRÈCHE. The Langabuya Educare Centre in Mbekweni has been covered with a roof already. The wall in front of the crèche will be finished in a month's time. This is part of the renovation of the building by Cargo of Dreams, an initiative of churches in South Africa and America, who converted shipping containers into a classroom, toilets and kitchen. On Saturdays, community members and members of Paarlberg Dutch Reformed Church, work together on this project.
